CompTIA Security+ certified cybersecurity enthusiast with academic experience in software and network security. Passionate about malware analysis, threat intel, CTFs and HTB, aiming to drive impactful solutions in real-world cyber space.

Work Experience

CloudSEK

Bangalore, Karnataka

THREAT RESEARCHER INTERN

Jul. 2025

TECH STACK: PYTHON, RABBITMQ, MONGO, POSTMAN, LLM, STIX 2.1, TAXII

- Automated ingestion and processing of threat feeds from dark web, social media and news articles sources for scalable enrichment.
- Developed an OpenCTI connector to enrich 500 average Twitter-sourced IOCs per day, with AlienVault, VirusTotal and AbuseIPDB.

SEFCOM, Arizona State University

Tempe, AZ, USA

GRADUATE SERVICE ASSISTANT

Nov. 2023 - May. 2025

TECH STACK: PYTHON, C, ANGR, POSTMAN, GIT, DOCKER, LINUX, BASH

- Accelerated router vulnerability triage by building 20+ Python scripts, improving exploit validation efficiency for research.
- Reduced analysis time by 40% through automation of CVE/CWE data collection, aligning findings with target firmware behaviors.

Abhaya Secure

Bangalore, Karnataka

STARTUP INTERN - CYBERSECURITY AND BACKEND

Sep. 2021 - May. 2023

TECH STACK: PYTHON, BASH, NODEJS, EXPRESS, MONGODB, BURP SUITE, NMAP, POSTMAN

- Improved detection of web and network vulnerabilities by developing 30+ automated testing scripts, reducing manual audit effort by over 60%.
- Reduced API response latency by 50% by restructuring backend services using NodeJS and MongoDB performance tuning.

ISFCR, PES University

Bangalore, India

CLUB HEAD | CTF TEAM LEAD

Dec. 2021 - Jun. 2023

TECH STACK: GHIDRA, IDA PRO, WIRESHARK, LINUX, PYTHON, PWNTTOOLS

- Led team to All-India Rank 8 and Global Rank 193 on **ctftime.org** by guiding strategy across reverse engineering, pwn, and forensics tracks.
- Expanded cybersecurity awareness to 500+ students by organizing 5 workshops and hosting inter-collegiate CTF competitions.

Projects

RootAnalysis - Disk Forensics Tool

2024

ARIZONA STATE UNIVERSITY

- Engineered a C-based disk parser to extract partition schemes, file system metadata, and geometry from raw disk images for forensic analysis.
- Enhanced forensic investigation efficiency by enabling structured root directory listing with verbose and log-mode outputs.

Random InSecure Container (RISC) Generator

2023

PES UNIVERSITY (MENTORS: PROF. PRASAD B. HONNAVALI, PROF. SUSHMA E.)

- Delivered a scalable platform with isolated lab environments for 500+ students by deploying Dockerized cybersecurity challenges in the cloud.
- Streamlined vulnerability education by integrating 5 open-source tools and hosting 16+ SEED Labs scenarios on the platform.

NetWalker Malware Case Study

2022

PES UNIVERSITY

- Uncovered infection vectors and payload techniques of NetWalker ransomware by conducting static analysis via Ghidra and IDA Pro.
- Mapped malware behavior through detailed process injection tracing and network interaction logging.

Certifications

Security +

CODE: YH8CYPJSZFFQ193P | VERIFY CERTIFICATE

Apr. 2025

Issued by CompTIA

Education

Arizona State University

Tempe, AZ, USA

MS. COMPUTER SCIENCE (CYBERSECURITY)

Aug. 2023 - May. 2025

PES University

Bangalore, Karnataka, India

B.TECH COMPUTER SCIENCE

Aug. 2019 - May. 2023
